**2. What God says is more important than what the world says (v. 9).**

“The Word of God must take precedence over the word of people — because people make mistakes; they are finite and are often wrong. God is omniscient and makes no mistakes. He speaks with authority. The Bible is true...God's Word is absolute, inerrant, and infallible truth, and when its teachings conflict with the teachings of men, we must believe God.” **John B. Phillips**

**3. Many will reject Christ (v. 10).**
